Dear Sir,

In accordance with Myanmar Investment Rule 199, we hereby submit the Annual Summary Performance Reports for Offshore Block AD-8 for the period of 1 April 2019 to 30 September 2019. These summary reports are for publication on MIC’s website.

Since 2014, Woodside has invested more than USD $400 million in Myanmar across three drilling campaigns and two seismic campaigns. Our social investment spend is more than USD $3.2 million and along with our joint venture partners we have spent approximately USD $3 million on environmental projects and studies focusing on building capacity and capability in Myanmar.

We are committed to developing resources responsibly and in accordance with global sustainability practices and making meaningful contributions to support progress in five of the United Nations Sustainable Development Goals that are most relevant to our business. They are: Affordable and Clean Energy; Industry, Innovation and Infrastructure; Climate Action; Life Below Water, and Partnerships for the Goals. Sustainability also means meeting the rising demand for energy and ensuring people across the globe have access to cleaner, safer and more reliable sources of energy.

We believe through investing in Myanmar we can contribute to energy security, economic development and social change. And we know that natural gas has a vital role to play in delivering the extra energy that countries need as part of a lower carbon future.

Woodside is leveraging our world-class capabilities and history as a safe and reliable LNG supplier throughout the Asia-Pacific region to explore energy opportunities in Asia.

The particulars of the businesses permitted by Myanmar Investment Commission are as follow:

(a) Name of Investor:
   - CNPC International Limited.
   - Woodside Energy (Myanmar) Pte Ltd.

(b) Myanmar Investment Commission permit number 415 / 2007 (10 January 2007).

Thank you for your support for Woodside’s activities in Myanmar. If you have any queries please do not hesitate to contact me or our Deputy Finance Manager Sandar Soe (sandar.soe@woodside.com.au).

Yours sincerely,

Michelle Grady
Country Manager
Woodside Energy (Myanmar) Pte Ltd

| 10.        | Total Investment to Date | US$45.59 million |
We believe through investing in Myanmar we can contribute to energy security, economic development and social change. And we know that natural gas has a vital role to play in delivering the extra energy that countries need as part of a lower carbon future. That’s why we have been operating in Myanmar since 2013, working hard to build our business here.

Since 2014, Woodside has invested more than USD $400 million in Myanmar across three drilling campaigns and two seismic campaigns. In addition, we have paid USD $14 million in taxes.

Our social investment spend is more than USD $3.2 million. This includes environmental partnerships and research, education and early childhood development.

Community and Stakeholder Consultations to date

- 46 meetings in Ayeyarwaddy Region
- 21 meetings in Yangon and Nay Pyi Taw
- 15 meetings in Rakhine State

Environmental knowledge sharing

- 2 marine environment workshops
- FFI Marine Science capacity building and coastal biodiversity of the Ayeyarwaddy
- WCS fisheries characterisation of Ayeyarwaddy
- Initiative to share knowledge of marine fauna biodiversity in offshore waters of northwest Myanmar
First community platform session held in Rakhine State in October 2019 to build community understanding of offshore gas investment and project cycles and start a discussion about the positive impacts companies can create through partnerships and development.

Enhancing marine science capability through sponsorship of Fauna & Flora International and Wildlife Conservation Society. Outcomes of these projects were shared with the wider community at three show and tell events held in Yangon.

Support for Women in Business

- Sponsorship and participation in AustCham Myanmar’s Women in Leadership and Development Conference 2019.

Health Safety and Environment

Our operations are characterised by strong safety and environmental performance in (remote and challenging locations) (offshore deepwater environments). Woodside has been granted 4 Environmental Compliance Certificates (ECC) covering all Myanmar drilling campaigns. Woodside, along with its joint venture partners have spent approximately **USD $3 million** on the environment. This includes environmental approvals, programs and studies in collaboration with universities, industry peers and environmental organisations.

Safety

0 lost time injuries across three exploration drilling campaigns and two seismic campaigns.

Local Content

Woodside has prioritised local spend through all three campaigns and during the 2018 campaign 35% of the contactor workforce were Myanmar nationals employed through our drilling services supply chain. And we are very proud to have trained over 100 MOGE staff in offshore drilling operations across all 3 campaigns.
